

Update Oct 24 2020 Covid-19 findings.

The below was written in early September and updated later. I intend to put any updates at the top from now on. Like Fr. Robert Altier I believe each of us is to be a watchmen on the wall and warn of any danger we see.

So far I have sent several hundred copies out and no one has challenged anything I have written. Please let me know if you feel any of my statements are false and I will make it right. I am trying my best not to put out misinformation.

One of the people I sent the following information to, sent me the youtube link <https://youtube/IXVY6rptfA> My article shows cures I have found for covid-19. This video exposes why so many authorities are doing all in the power to make sure none of them are used.

If Fr. Altier is right this is the scandal of the century!

A few days ago I read a glowing report of how chlorine dioxide cured many cases of covid-19. This positive report has now been replaced by many negative reports. Maybe I am a cynical old man but I get highly suspicious when reports are taken down. If anyone can tell me where I can find more information on this I would appreciate it.

Like several other cures chlorine dioxide increases oxygen in the blood.

Artemisia A3 has been called “the queen of healing herbs”. It has been used successfully to treat many diseases including malaria, HIV and cancer and now has proven successful against covid-19.

Even though WHO admits it has no serious side effects, and double blind studies have proven it extremely effective against malaria they are trying to stop its use. A supplier in Germany has been told that if he is caught selling it he will face a 5,000.00 euro fine.

Go www.lifesitenews.com then to all articles – specific date type in 2020/09/22 and find the article on Dr. Fauci. The entire article is very revealing, however the two graphs under realclearpolitics prove hydroxychloroquine is already saving hundreds of thousands of lives and is the answer to covid-19.

Google “nine doctors speak out – Charlie Kirk. Here 9 doctors with the combine experience of over 200 years tell of their experience of curing hundreds of covid-19 patients with hydroxychloroquine. Special interests have closed all of their websites down. **Real science is being silenced! People are dying and economies are being crushed. Do you care?**

Huge game changer Israel is making a covid – 19 tester which gives an instant reading. It is extremely accurate and is already being tested in airports. If the price is right and enough can be produced lock downs could all stop immediately,

Plan to get back to normal

Covid-19 and the fear of covid-19 has made profound changes in our world. We have lost many of our freedoms and seem to keep losing more. Suicides, death fro drug overdoses, family violence, euthanasia, alcoholism, violent crime, lawlessness are all on the rise. **Too many things seem to be in a downward spiral.**

Can this trend be reversed?

First let's look at some facts.

The US Center for Disease Control (CDC) states only 6% of the people listed of dying of covid-19 didn't have other contributing health problems. If these same figures are true for BC that is only 12 people.

The medium age of death in BC is 82. The medium age of death with covid-19 is 85.

Of the 200+ who are listed as having died of covid 19 only 7 were under 60, 2 under 50. No one under 40.

Old people die.

It seems that people with good immune systems shouldn't be worried for themselves.

Have you ever heard any government or health authority even suggest we should be guarding our immune systems?

I am 88 and I am not afraid of getting or transmitting covid-19. **Why?** I try my best to keep my immune system strong.

I get enough sleep.

I try to eat well.

I have a powerful tonic. See www.bye-bye-malaria.org tonic for the recipe.

I take 2000 units of Vitamin D a day and 1000 of Vitamin C daily.

I do 60 minutes of quite intensive exercise five days a week.

If we each tried to keep our immune systems strong everything should go back to normal.

Surely the authorities know this. **Why won't they not admit it and let life be enjoyable again?**

Hydroxychloroquine Under directions from the World Health Organization (WHO) this cheap medicine is not available to treat covid-19 in Canada, USA and much of the world. This recommendation seems to be based on 4 studies.

The first was a fairly large study done in Montreal. ½ of the patients with covid-19 were given hydroxychloroquine and ½ a placebo. **No one died from either group.** The report came out that hydroxychloroquine made no difference. Now I find that the placebo was vitamins so it seem to prove both hydroxychloroquine and vitamins can beat covid-19. However the conclusion was hydroxychloroquine is ineffective???

The next study was huge, covering thousands of patients in hundreds of hospitals worldwide. Lancet medical journal wrote it up that not only was hydroxychloroquine ineffective, but also deadly. Other scientists looked at the massive data did some checking and challenged the findings. The authors admitted they just made up the figures. **Their study was a fraud!** It was taken out of Lancet and to a great extent was silenced. As far as I know there have been no charges have been laid.

WHO was now desperate and two quick studies were done. This time only those who with very ill with covid-19 were in the study. Hydroxychloroquine is known to be extremely effective as a preventative or in early stages of covid-19, not so effective in advance cases. Further the dosage was four to six times over the recommended dosage. As far as I know four people in the two studies died of heart problems. On this “evidence” WHO condemned hydroxychloroquine worldwide. **These studies seemed to be designed to fail and they did.**

Hydroxychloroquine is still being used against malaria, lupus and arthritis, with no serious side effects. India’s largest slum had 3000 cases of covid-19 on the first two days of exposure. This slum has well over a ½ million people living in less than a square mile. A disaster seemed to be in the making, Hundreds of thousands were treated with hydroxychloroquine. In three weeks the problem was solved. Countries where hydroxychloroquine is being used have had no serious covid-19 problem.

You can find a great testimony for hydroxychloroquine by googling “nine doctors speak out Charlie Kirk”. These nine doctors, with a combined experience of over 200 years, have all successfully treated hundreds of covid-19 patients with hydroxychloroquine and all say they believe covid-19 could be eliminated in 30 days. All have been vilified and have had their websites taken down for spreading misinformation. I have not found a single thing challenging their findings. Their crime is proving the WHO wrong.

The only things against using hydroxychloroquine to treat mild cases of covid-19 seems to be that it is cheap. It is long off patent and available from many companies. Big pharma is cut out. WHO gets most of it's funding from big pharma, Bill Gates, the Chinese government and Canada. He who pays the piper calls the tune.

Hydroxychloroquine is not as effective against advanced cases of covid-19 but there are other options. Visit www.vashiva.com and you will find that Dr. Shiva, the inventor of e-mail, claims to have saved people with the worst forms of covid-19 with injections of vitamins D and C and vitamin A orally. There are other ways of strengthening your immune system on this website.

Dr. Richard Bartlett claims to have saved severely ill covid-19 victims with the cheap drug budenonide which increases the oxygen in the blood. Until a couple of days ago you could find this on www.thecovidsilverbullet.com but the website has been blocked. Remember the good old days when there was freedom of speech? You can still find information by googling his name, atleast for now.

The Israelis also claim to have cured extremely bad cases by raising the oxygen in the blood, but by using a hyperbaric chamber with pure oxygen.

All these methods seem to work and meet "do no harm" yet if you google any of them the first thing that comes up is a WHO paid ad claiming they don't work.

WHO consistently tries to prevent artemisia A3 from ridding the world of malaria. See YouTube "The Malaria Business" to follow this story. After this show was finished Dr. Jerome Munyangi, (who is featured) was poisoned. When he didn't die, was jailed and tortured. He had proved artemisia was over 20% more effective than the best pill WHO has to offer against malaria. Also it was over 50% faster and had 9 times less side effects. **So much for science.**

It is time to quit being afraid of covid-19 and start to fight for our freedoms. Do your own research then write your own contacts, starting with your own doctor, MLA and MP.

In the next few days hundreds of copies of this will go out. First to media outlets I have some faith in, such as Fox News, Epoch Times, Laura Lynn TV, Rebel News, LifeSite News, Real Clear Politcs and some Christian media outlets. Next to family and friends I love and respect. Then to mainstream news and finally to both Federal and Provincial government members.

I have tried to be the watchman on the wall and have reported the danger as I see it. If you feel this information is wrong, on any point, please show me where.

Google wo 060606 and hr 6666 and see if you agree it sounds like the mark of the beast is right around the corner. See Revelation 13:16-18. **Sleep well.**
