

## A Summary Of the updated Oct 24 2020 Covid 19 findings

For several months I have been trying to find the truth behind covid-19 and have been dismayed to find a huge degree of misinformation. It seems there are a multitude of vested interests determined to control our lives through fear.

I hope you will take the time and interest to read the whole report. Here is a summary which should encourage you to do your own research. You will find more details on [www.bye-bye-malaria.com](http://www.bye-bye-malaria.com)

Please go to <https://youtube.com/IXVY6rpwtfA>

Fr. Altier, a courageous pastor who is warning his flock of the dangers we all face.

I have found there are many ways to cure covid-19 all of which have been ridiculed or removed. Within hours of a new cure being published the World Health Organization has a paid ad, on Google's top spot, claiming it doesn't work, or is dangerous.

In these ads WHO does not dispute that scientists have used various cures successfully but just states they are not effective or dangerous and should not be used.

Here are some of the cures.

**Ivermectin** Dr. Pierre Kory and a group of doctors have found this low cost drug has been extremely effective in preventing and treating Covid -19 in all stages. According to Dr. Kory many trials starting in Aug. have shown that using ivermectin as a preventative, or in early treatment has been almost 100% effective. Even with very serious cases deaths have dropped very dramatically. While it has some side effects they are not as numerous, or as severe, as those found with vaccines. See [www.covid19criticalcare.com](http://www.covid19criticalcare.com). Dr. Kory's group FLCCC have a total of more than 2000 years experience and have published more than 2000 peer reviewed papers.

**Zinc** People with adequate zinc levels in their blood do not die of covid 19. Zinc and vitamin D supplements are readily available and highly recommended.

**Artemisia A3** This miracle herb has successfully treated many diseases including malaria, HIV, cancer and now covid-19. Even WHO admits it has no serious side effects yet WHO is trying to ban it worldwide. Ask yourself why? For more information visit [www.anamed.org](http://www.anamed.org)

**Hydroxychloroquine** Hundreds of thousands have been cured of covid-19 by this cheap drug but again WHO has it banned in many countries. Google "nine doctors speak out Charlie Kirk" and you will learn of their work. See [www.americasfrontlinndoctors.com](http://www.americasfrontlinndoctors.com)

Life Sight News carried a story showing that of July 22 nine countries which had used hydroxychloroquine from the start of the pandemic had only lost 4 people per million each. On the same date the USA had lost 400 per one million. One hundred times higher. In spite of evidence like this hydroxychloroquine is banned in many countries.

There is much more in my full report on this drug which seems to a very practical way to bring the world back to sanity.

**Chlorine Dioxide** There was a glowing report of how a German Scientist Dr. Andreas Kalter cured even extremely bad cases of covid with this common disinfectant. Within days his website was gone and the internet was covered with denials. After reading these denials it would seem that most swimming pools should be deadly.

**Budenoside** Dr. Richard Bartlett had a great website [www.thecovidsilverbullet.com](http://www.thecovidsilverbullet.com) but, like other websites showing cures for this virus, this website has been taken down. It is a steroid which greatly increases the blood's ability to carry oxygen. Oxygen is well proven to promote the body's ability to heal itself.

**Hyperbaric Chamber** An Israel research team claim that putting even the worst cases of covid-19 victim into a pressure chamber, with pure oxygen, always provides a quick cure.

**Vitamins D, C and A.** At least, up to now, [www.vashiva.com](http://www.vashiva.com) is still up. Dr. Shiva, who invented e-mail while still in his teens, has done much health research throughout his life. Again serious cases of covid-19 are cured by this vitamin cocktail. He suggests all seniors take supplements daily.

**A real quick test.** Israel has a one second, inexpensive, covid-19 test claimed to be 95% accurate. It is now being tested in several European airports. The test kit is only \$200.00 and each test .25. This should prove to be a complete game changer – life back to normal almost immediately.

I hope you will do your own research. If any of these points are wrong let me know. If not let others know. We have no reason to live in fear.

Myself I make sure to keep my immune system up by eating well, taking vitamin supplements and lots of exercise. I believe I am covid-19 proof and you can be too.
